Occupation summary

This occupation is found in Firefighters resolve a wide range of emergency situations where problem solving and initiative is vital to resolve incidents quickly and calmly. When in attendance, they must adopt a sensitive approach to dealing with members of the public and casualties who may be distressed and confused.

The working day could include theoretical and practical training along with testing and maintaining equipment to ensure operational preparedness. It is essential a firefighter is prepared and ready to respond at all times when on duty. Firefighters must be able to carry out physically demanding work; at height, in enclosed spaces, and outdoors - working in all weather and environmental conditions. They could be called upon to treat injured casualties and deal with fatalities. The broad purpose of the occupation is These situations vary from tackling fires, searching, rescuing and protecting people and animals, by sustaining/preserving their life to protecting life and the environment from the effects of fire, natural and human disasters and hazardous materials. (Chemical, biological, radiological, nuclear, and explosives). They also respond to incidents involving planes, trains, road traffic collisions and marine emergencies. In their daily work, an employee in this occupation interacts with Firefighters engage with the community to provide information, advice and guidance to individuals and groups around health, safety and well-being. They may also conduct fire risk assessments and audits in businesses and homes, fitting detection and suppression equipment if necessary. By doing this, firefighters actively contribute to reducing the risk of fire or injury. An employee in this occupation will be responsible for Firefighters work as part of a close-knit team of professionals that provides 24-hour response cover to resolve fire and rescue operational incidents. They adopt multi agency working principles with partners and other services to achieve a swift and successful conclusion. They will also need to be able to carry out tasks individually.

Are there any statutory/regulatory or other typical entry requirements?

No

- B4:** Situational awareness by maintaining an active awareness of the working environment to ensure a safe, secure and compliant working culture.
- B5:** Commitment to excellence, by adopting a conscientious and proactive approach to work to achieve and maintain excellent standards with a motivation to succeed.
- B6:** Work collaboratively with others, both internally and externally.

Qualifications

English & Maths

Apprentices without level 2 English and maths will need to achieve this level prior to taking the End-Point Assessment. For those with an education, health and care plan or a legacy statement, the apprenticeship's English and maths minimum requirement is Entry Level 3. A British Sign Language (BSL) qualification is an alternative to the English qualification for those whose primary language is BSL.

Does the apprenticeship need to include any mandated qualifications in addition to the above-mentioned English and maths qualifications?

No
