

Key:-

S/S worktop, kitchen type units and eye level units

1. Space for cylinder rack below stainless steel worktop. Details specification and dimensions of the cylinder rack to be confirmed.

Allow sufficient depth of worktop to ensure cylinders do not protrude into the room. Cylinders to be contained in specialist "wine rack" storage (see fig.1). Refer to specialists design and detail for further information.

2. S/S double bowl sink

3. Comp recharge shelf

4. Hand wash basin with tiled splash back , hand dryer by others

5. Fixed window (visibility of compressor room)
